Skills

| HTML | CSS | JavaScript | React | Node | Express |

Projects

Family Tabs / family-tabs.netlify.com/ — January 2019

Family scheduling calendar app to keep track of family events.

React | Node | Express |

- Worked on a team of 4 over a 4 week period.
- Child accounts can propose and view events.
- Parent accounts can approve and create events and manage child account settings and permissions.
- Secured with Auth0.

Bubble Notes / bubble-notes.netlify.com/ — December 2018

Create, edit, and delete notes and watch them float away in bubbles.

React | Node | Express |

- Solo project conducted in under 1 week.
- Open note taking app using React hooks and an experimental global state management package.
- Dozens of programmatically generated bubbles for atmosphere.

Help Ryan Study Game / help-ryan-study.netlify.com/ — November 2018

2D Platformer. Collect Lambda Tokens. Avoid the cat.

JavaScript | Phaser |

- Built in JavaScript using the Phaser game engine.

Ryan Clausen Film Portfolio / theRyanClausen.com — September 2018

HTML | CSS |

- Simple portfolio page. All animations done with CSS.

Experience

Lambda School / Teaching Assistant — November 2018 - Present

- Twice weekly stand up meetings for a group of 8 students.
- Review and debug student code.
- Weekly review lecture / Q&A for 15 to 20 students.
- Bi-weekly 1:1 feedback/tutor sessions to ensure student success.

Education

Lambda School / Full Stack Web — August 2018 - Present

- Curriculum in HTML, CSS, JavaScript, React, Node, Express, Sqlite3.
- Completed daily mini projects incorporating newly learned skills as well as week long projects every month.
